

Sneaky Snake Friend

1. Trim paper strips down to your chosen length, then put ends together so that they overlap. Then glue them together.

2. Add links by lacing another paper strip through the first loop, then glue together the overlapping ends.

3. Add a stripe down the snake friends' back by adding loops on the top of every other link.

4. Glue wiggle eyes and pom poms to the front of the snake to decorate, then go use paper. Make a tongue by curling a trimmed piece of a paper strip. Use your imagination!
